

ARKANSAS OUT OF ISRAEL BONDS.

“I entered medical school because I wanted to save people’s lives.”

Marwa, Palestinian medical student in Gaza. Diary published by UNICEF, March 20, 2024.

Palestinians deserve to live, learn, heal, and build their futures in freedom. We organize to end Arkansas’s financial support for the Israeli government through Israel Bonds.

STATE TREASURY • \$55 MILLION HELD IN JUNE 2025

Seven positions in the June 30, 2025 bondholder statement. A historical balance.

APERS • \$25 MILLION HELD

Two Israel Bonds on a preliminary custody report dated September 7, 2026: the \$15 million bought October 15, 2025, and a second \$10 million bond.

ATRS • \$50 MILLION FUNDED • \$9.9 MILLION BOUGHT

Account funded January 2, 2026; Israel Bond issued February 15, 2026. The manager’s stated objective: more Israel Bonds, no more than \$10 million a year.

These are separate, dated findings, not a combined current-holdings total.

NO NEW BONDS. NO RENEWALS. NO REINVESTMENT.

Bring the principal home as existing bonds mature and keep it out of Israel Bonds. Ask Treasurer John Thurston for a public commitment and a written response. Invite two people to make the demand with you and choose a date to follow up.
